Work Experience

Internships

- **Jio Platforms Limited** - DevOps Engineer Intern *June'26-Jul'26*
  - Contributing to DevOps workflows and cloud/infrastructure operations.
- **Atyeti Robotics Private Limited** - SDE (Frontend-Dev) Intern *Dec'25-Jan'26*
  - Developed responsive user interface (Next.js) and integrated with Django in production grade env.
- Winter Internship **VESIT** - Build-a-thon 2025-26 *Dec'25-Jan'26*
  - Developed an AI enabled Smart Question Paper Digitization System
- **Reliance Industries Limited** - SDE (Python-Backend) Intern *May'25-July'25*
  - Migrated Flask backend to FastAPI and engineered a **Spring Boot ERP MasterData caching system**.
- Winter Internship **VESIT** 2024- Exam management system using Python-Django *Dec'24-Jan'25*
  - Developed a web-based Exam Management System (scheduling, registration, and result).

Projects /Hackathons

- Syrus Hackathon VESIT [Winner-Best Sustainability Award] *2026*
  - **Re-mine-AI**: A multimodal AI and blockchain platform for e-waste valuation and recycler matching.
- **Q-volution International Hackathon**[Top 5 - Honorable Mention] *2026*
  - Built a quantum ML-based option pricing system using quantum reservoir computing to improve volatility prediction and pricing accuracy.
  - Designed an end-to-end IoT architecture integrating ESP32 and sensors, cloud analytics, and AI generated insights on flutter based frontend. *2026*

TechSprint GDG-VESIT [Winner]
  - Engineered a Cloud Run-hosted ecosystem, utilizing Vertex AI (IoT-AI system) Gemini to automate energy controls and deliver XAI risk insights. *2026*

GOLC International Award [Winner] - "Quantum Playground"
  - Developed full stack interactive quantum simulation platform offering 14 guided experiments using Qiskit Aer and Streamlit, secured by OTP-based authentication. *2026*

EY Techathon 6.0 - "**RFP Copilot**"
  - Engineered an Agentic AI copilot using LangChain, TypeScript for RFP automated qualification. *2026*

Mumbai Hacks - "**FinSphere**"
  - Architected a privacy-first RAG system using Local LLMs and Vector DBs for financial decisioning. *2025*

Hack-AI-Thon -VESIT - "**IDMS 3D-Avatar**"
  - Includes speech processing, 3D rendering, Lip sync Engine using three.js, VapiAI, ConvoAI, Blender. *2025*

SIH'24 Selected for intra-college hackathon round - "**Kheti-Vyapar**"
  - D2C app connecting farmers to customers, eliminating intermediaries to reduce cost inflation. *2024*

Education

- **B. Tech in Computer Engineering** - **VESIT, Mumbai** - Aggregate CGPI: **9.76** *2023-Ongoing*
- **High School** - **NHSS, Thane** - Percentage: **94%** *2021-23*

Technical Skills

- PostgreSQL
- MongoDB
- Firebase
- Tableau
- FastAPI
- Django
- Flutter
- React/NextJS
- DevOps
- MS Azure
- JAVA
- Python

Soft Skills

- Communication Skill
- Adaptive collaborator
- Problem-solving
- Creativity/Innovation
- Time Management

Achievements/Certifications

Co-Curricular:

- Research paper presented at **ICT4SD International Conference 2026**, Goa
- **Winner** - **Syrus Hackathon** 2026 (VESIT)
- **Top 5** - **Q-volution International Hackathon** 2026
- **Rank 2** - **Build-a-thon** 2026 (VESIT)
- **Winner** - **Hackquinox** 2.0 2026 - National Level
- **Winner** - **GDG TechSprint Hackathon** 2026
- **IBM-Coursera** Certification course on DevOps
- **Winner** - **GOLC International Award** 2026
- **Winner** - **Ideathon**-2025
- **Rank 3** - **Winter Internship** 2024-2025.

Extra-Curricular:

- 2nd Position in intra college music competition.
- Winner of 2 consecutive institute level music exam.
- Bronze medal in inter school band competition.
